

Dear colleagues,

We would like to share our enthusiasm in organizing this Masterclass of the EHNS Academy on the multidisciplinary approach to Head and Neck Cancer.

The purpose is to raise the quality standards of patients care by all specialists (Head and Neck Surgeons, Maxillofacial Surgeons, Medical Oncologists, Nuclear Medicine Specialists, Oncology Nutritionists, Otorhinolaryngologists, Palliative Care Specialists Pathologists, Radiation Oncologists, Radiologists,) involved in the management of head and neck cancer by having you experience a full immersion in our hospital.

The interaction between specialists from different disciplines, taking an active part in real case management activities, has been the key to the success of previous Italian editions that we would like to open to colleagues from abroad as well.

*Giuseppe Mercante
and Paolo Bossi*

CME CREDITS

Masterclass grants CME credits. The amount of credits earned will be announced later.
